Rizky Rhamadani

Fullstack Developer

Jakarta, Indonesia | rizkyrhamadani.com | ryzkirham@gmail.com | linkedin.com/in/rizky-rhamadani- | github.com/damosfxa

SUMMARY

Self-taught fullstack developer, learning since 2020, who builds web applications end to end: the database, the API, and the interfaces people use every day. Experienced in turning manual work such as stock records and revenue reports into tidy, secure, easy-to-use systems. Winner of a 2026 VibeDev bounty. Open to full-time or freelance roles, prefers remote work, and available immediately.

SKILLS

Core: React, Next.js, TypeScript, Tailwind CSS, Vue, Laravel, PostgreSQL, MySQL, Prisma, Flutter

Also used: JavaScript, PHP, Node.js, Supabase, REST API, Git, Figma, Vercel

EXPERIENCE

Freelance Fullstack Developer

2026 - present

Remote

- Build web applications for clients from requirements analysis, database design, API, and interface through deployment.
- Won a VibeDev bounty with a stock reconciliation system for an Indonesian skincare brand (about 70 products sold on Shopee and TikTok Shop).
- Focus on systems that replace manual work: stock records, revenue reports, and customer data.

PROJECTS

Stock Reconciliation System, Indonesian Skincare Brand · VibeDev bounty winner

2026

Next.js, Supabase, PostgreSQL, TypeScript, Tailwind CSS
celo-skincare.vercel.app | github.com/damosfxa/Celo_Skincare

- Append-only stock ledger locked with Row Level Security; every stock change is recorded and traceable.
- All writes go through Postgres RPC functions to guarantee atomicity and prevent race conditions.
- FEFO batch allocation, QR labels for warehouse scanning, returns with condition inspection, and stock opname with automatic corrections.

Client & Revenue Management Dashboard

2026

Next.js, React, Prisma, PostgreSQL, Tailwind CSS
income-dashboard-cyan.vercel.app | github.com/damosfxa/income-dashboard

- Custom JWT authentication with brute-force login protection.
- Revenue analytics dashboard, client data management (simple CRM), and monthly financial targets.
- Automatic report generator that exports transactions to Excel (XLSX).
